Programming languages (C Programming) .

PROJECTS

-
- **“ Design and CFD Analysis of Gas Turbine Combustion Chamber”**

DESCRIPTION :"Design and CFD analysis of a gas turbine combustion chamber for efficient fuel burning, low emissions, and maximum power output. Involves geometry optimization, material selection, and simulation of fluid dynamics, heat transfer, and combustion dynamics."

- **“Design of ForkLift in Catia Software”**

DESCRIPTION: The forklift design in CATIA software is a 3D model of an industrial truck used for lifting and moving materials. To design forklift in CATIA software first design forklift parts individually one by one then all parts assemble in assembly design bottom up approach. to design parts use part design and surface design.

STRENGTHS
