Objective

Problem-solving has always been a passion of mine. If it weren't for engineering, I'm not sure what I would be doing.

Experience

- Arrelic Reliability Pvt Ltd** 01-09-2020 - 31-08-2022
Plant Maintenance & Diagnostic Engineer
 1. Provide training on 5S methodology to all employees of Vandana Global Ltd (where me and my team mates took the project) in order to implement 5S to the whole plant by creating 5S committee, 5S co-ordinator, 5S audit team, Zonal leaders, Sub-Zonal leaders & team members, etc.
 2. Analysis criticality of plant assets in order to define the probability and consequences of the failure events that may occur for a system, which helps to determine the systems, locations, and pieces of equipment have the highest risk of failure. After that preventive maintenance optimization of that particular assets will be done. The main aim of this project is to reduce maintenance cost of plant assets.
- Oriental Bottling Pvt Ltd** 15-11-2022 - 18-06-2023
Finished Good Shift Incharge & Production Supervisor

Oversee and coordinate daily warehouse & shop floor activities such as receiving and storing goods, managing inventory levels, supervising staff, and securing the warehouse & shop floor.
- Variational Technology Pvt Ltd** 23-06-2023 - Present
Project Engineer

Dimensional & part inspection by using laser tracker and comparing with a given protocol which contains required dimensions with a specified tolerances and then modify with some team of technicians

Education

- Adams English High School** 1999-2011
78%
- Vidhya Bharti English Medium School** 2011-2013
79%
- CK Pithawala College of Engg & Tech** 2013-2017
Bachelor of Engineering
8.85 CGPA

Skills

- MS Excel
- MS PowerPoint
- Time Management
- Communication Skills
- Work under pressure
- Presentation skills
- Active listener
